

## Maths -

This term in maths will be focussing on the following areas:

- multiplication and division (column method up to 4 digit x 2 digit numbers and 4 digit by 1 digit division)
- fractions ( multiplying fractions and finding fractions of amounts)
- decimals and percentages.

## Religious Education-

The title of this term's R.E module is 'People of God'. We will look at the life and work of Moses, how the difficulties he faced allowed him to follow God's will and the impact that had on the world.

## Music

For music this term, Kent Music will deliver violin lessons.

## Science - Physics

This term's science is based around forces. We will investigate the impact on gravity on a range of objects, as well as air and water resistance.

# Woodpecker class - Term 3

## 50 Things

Take part in a sporting activity

## Computing

This unit gives learners the opportunity to learn how to create short videos in groups. As they progress through this unit, they will be exposed to topic-based language and develop the skills of capturing, editing, and manipulating video

## History

We will be investigating famous explorers this term and how they have shaped and influenced the world around us.

## English

This term we will be reading *The Unforgotten Coat* by Frank Cottrell Boyce and *Where The Mountain Meets the Moon* by Grace Lin. We will be focussing our writing upon pieces to persuade and inform whilst continuing to enhance our VIPERS reading skills.

## Art and D&T

In art will focus on the work of Richard Kimbo and his colour batiks (designs where wax is used to cover the areas not meant to be coloured)

Year 5 students will learn about arch structures, key components like keystones and piers, different arch shapes, and how their unique designs distribute weight to provide strength, stability, and durability.

## Geography -

In geography this term will be studying South America. We will be looking at river basins, seismic activity and the major cities and their populations.
