

## Maths

Even though the SATs are over, there are still some strands of Maths that need to be covered ready for Year 7.

- Algebra
- Ratio
- Statistics

## English

Our leaning focus this term will be around silent animations: The Piano and The Lighthouse Keeper. We will be writing an emotive narrative and a flashback narrative. Children will also be rehearsing their parts for their end of year performance; during this time, they will be developing their oracy skills as well as their performing skills.

## 50 Things

Receive an achievement letter from school

## Religious Education

Our big question this term is 'What kind of king is Jesus?' We will explore what the Bible teaches us, as well as what our own experiences have led us to believe.

# Wolves Class Term 6

## D&T

In D.T, we will be using the secondary phase cooking facilities to make a tasty dish. We will begin by planning our dishes, looking at how versatile a bolognese can be.

## Music

Our music lessons this term will be spent practising for our production. All the songs for Giggibox can be found on major streaming platforms such as Spotify.

## Computing

Module 6 is entitled 'Sensing movement' where students will apply their programming skills with fantastic bits of kit called micro:bits.

## Science- Physics

The title for this term's science is 'Titanic', focusing on the concept of buoyancy. This module provide a lot of opportunity to investigate the concepts of buoyancy and provides a lot of opportunity for creativity.

## History

This term we will continue to study WW2. We will delve into the major battles which occurred during this period, discuss the impact of propoganda and how it shaped the public opinion and looking at how WW2 reshaped the world with the formation of The United Nations. Children will also engage in a WW2 experience day where they will discover how children of their age experienced life as evacuees. The children also see how those on the Home Front pulled together to do their bit for Blighty.
