Dear Parents/Carers,

The thoughts and prayers of the Aletheia Trust and member schools are with all those affected by the war in Ukraine.

There is an increasing need for support which is evident with the devastating events that are affecting so many. As a Trust, we are determined to find ways to help in any way we can. There are many organisations that are showing their support by offering donations and providing goods to those who need them.

As a Trust, we want to help. Individual schools have decided that over the coming weeks, they will run fundraising activities. This will help raise funds and generate as many donations as possible across our community, as well as encouraging students to get involved through a range of interactive hands-on activities. Some examples include:

- Collecting essential items and transporting them to the Ukraine border
- Ukraine-themed bake sales
- Yellow and Blue non-school uniform day
- Painting eggs - Ukraine is known for painting Opishnia (easter eggs)
- Football tournament - Ukraine's national sport is Football
- Sponsored events

We will share details of how much we have raised and how we raised it through our social media pages.

Furthermore, if you wish to contribute any further, these are the charities that we have chosen to support:

- [Red Cross Ukraine Appeal](#)
- [The Association of Ukrainians in Great Britain](#)

We also understand that it is a difficult time and not an easy subject to approach, especially with children. There are plenty of resources available to help aid in the conversation. In our schools, the teachers will be discussing the events, in an age-sensitive manner. In our school community, we will ensure that students can access extra support during this troubling time with opportunities to explore their feelings. If you would like some more guidance to start the conversation at home, you may find the following resources useful.

- [EducationHub.Gov](#)
- [BBCBitesize](#)

Aletheia has always identified as a family of schools, linked geographically, with community at the heart of everything we do. Therefore, like many elsewhere, we are determined to demonstrate our commitment by joining the humanitarian effort to support the people of Ukraine through our fundraising efforts. We would be extremely grateful for any support you can give, as it will seemingly make a huge difference to all that have had their lives changed beyond measure.

Thank you!
